EHAB IN BRIEF

Esmailzadeh Holding AB (publ) or “EHAB” is an entrepreneurially driven investment company that invests in and develops long-term sustainable companies within selected industries with deep niches. We put entrepreneurs at the centre and give them the right conditions and tools to create profitable and resilient companies. Our primary focus is investments within operational groups with the possibility of both organic and acquisition-based growth. EHAB is an active owner who continuously evaluates and develops its investment portfolio.

EHAB has holdings in, among others, Eitrium, Centripetal Lyvia, Novedo and Rebellion.

INTERIM PERIOD IN SUMMARY

"Over the past months, EHAB has been actively working to manage the upcoming bond maturity and ensure a stable financial foundation. This has resulted in a well-founded proposal supported by our largest bondholders. The proposed extension would provide EHAB with the right conditions to realise value and thereby fulfil our commitments to our investors."

Mikael Ericson, CEO

Financial overview

- The total net asset value was MSEK 6,384 (7,164), equivalent to SEK 8,117 (9,294) per ordinary share.
- Total assets were MSEK 8,076 (8,751).
- Net debt amounted to MSEK -1,469 (-1,308), which corresponds to a loan-to-value ratio (LTV) of 23% (18%). The equity ratio was 79% (82%).
- Net loss for the year amounted to MSEK -880 (-443) and earnings per share amounted to SEK -1,142 (-574). Loss for the fourth quarter amounted to MSEK -159 (-572) and earnings per share amounted to SEK -206 (-742).

Significant events during the fourth quarter of 2024

- In November, EHAB signed a letter of intent with an international investor regarding the sale of EHAB's shares in Lyvia Group AB in order to address EHAB's bond maturity. EHAB has since then communicated that it is uncertain whether the transaction can be completed in accordance with the intended structure and that the exclusivity commitment towards the investor has expired.
- During December, EHAB initiated a written procedure to primarily extend the tenor of the bond loan in order to be able to complete the sale of Lyvia before the bond's maturity.

Significant events after the period

- In the beginning of January 2025, EHAB's bondholders approved the written procedure that the company had initiated in December 2024. The approval primarily entailed an extension of the maturity date for EHAB's outstanding bond loan to 26 April 2025.
- At the end of February, EHAB announced a proposal to further amend the bond terms and refinance the bond loan, through a mandatory exchange of the company's existing bonds for new secured bonds. The new bonds are proposed to have a tenor of three years and a fixed deferred interest of 11% per year, as well as be secured by the pledging of EHAB's shares in material portfolio companies and a new wholly-owned intermediate holding company. The proposal for a securities exchange is subject to a written procedure being approved in accordance with the bond terms.
- In February 2025, EHAB divested all its shares in Hidden Dreams AB. The payment was made in shares in Novedo Holding AB, Rebellion Capital AB and Centripetal Partner AB. The sale entails a dissolution of EHAB's remaining capital commitment to Hidden Dreams AB.

STATEMENT BY THE CEO

Dear shareholders,

Over the past quarters, EHAB has continued to prioritize the repayment of the outstanding bond loan, primarily through the sale of Lyvia. In November 2024, we signed a letter of intent for the sale of Lyvia with an international investor and were shortly thereafter granted a three-month extension of the bond loan to facilitate the transaction. However, a few weeks later, circumstances changed, and the transaction with the international investor appeared increasingly unlikely. We then decided to renew our dialogue with bond investors to find a more long-term solution. We are disappointed that the sale of Lyvia did not go through, but we are pleased to have negotiated a potential three-year extension of the bond loan. The extension, which is subject to a written approval from bondholders, would provide us with necessary time to achieve better outcomes in exit processes, allowing us to both repay our bond and preserve shareholder value.

Parallel to EHAB's structural efforts, our platforms continue to develop well. Lyvia reported a revenue growth of approximately 7% and an adjusted EBITDA growth of around 14%, calculated pro forma, compared to 2023. Novedo reported an increase in net sales of approximately 12% and an EBITDA growth of around 19% compared to 2023. Additionally, Novedo refinanced its bond loan during the year. We remain highly confident in our portfolio companies' ability to deliver stable results and continued growth.

With EHAB's focus on improved liquidity and bond repayment, EHAB will, for the time being, refrain from making new investments and instead focus on divesting or discontinuing operations.

For example, during the fourth quarter, EHAB exited its investments in Samfastigheter i Norden and Hidden Dreams, along with the associated investment commitments. This strategic shift also requires adapting the organization, which has led us to reduce the head office staff by more than half. My assessment is that EHAB now has the necessary organization in place to push the company and our exit processes forward.

As per 31 December 2024, the net asset value of EHAB was MSEK 6,384, a decrease of approximately 2.4% compared to the previous quarter-end. The change is driven by value adjustments in Samfastigheter i Norden and Hidden Dreams, as well as EHAB's ongoing costs and interest expenses.

2024 has been a challenging year for EHAB, our employees, and our partners. I want to thank everyone, foremost our employees, for your support and intense work over the year.

We are also pleased and grateful for the positive dialogue we have had with our bond investors. That dialogue has now resulted in the proposal for a three-year extension, which will provide us with the opportunity to continue strengthening the company's financial position while preserving shareholder value.

We look forward to an eventful 2025!

Mikael Ericson,

Chief Executive Officer

"We are pleased to have negotiated a potential three-year extension of the bond loan. This extension provides us with the flexibility to achieve better outcomes in exit processes, allowing us to both repay our bond loan and preserve shareholder value."

BUSINESS DESCRIPTION

EHAB's activities consist mainly of investments in long-term perseverant groups of companies with industry-specific focus. EHAB is a responsible owner who plays an active role in the portfolio companies' strategic work and development. Industry diversification in our holdings, combined with prudent investment criteria, makes us an investment company with well-balanced risk diversification and low cyclical sensitivity. Our portfolio is constantly evolving as interesting business opportunities are identified.

Segmentation

EHAB divides up and monitors its portfolio based on three segments; *Operational Groups*, *Venture Capital* and *Liquid Assets*. Operational Groups includes the portfolio companies whose objective is to build and develop groups in resilient sectors with good potential for growth. Venture Capital includes those investment platforms that invest in growth phase companies, as well as some direct investments in growth companies. Liquid Assets consist of investments in listed securities and cash equivalents, i.e., assets that can be more easily converted into cash equivalents.

Operational Groups companies Eitrium, Lyvia, Novedo and Rebellion are all specialised in different sectors, such as industry, infrastructure and technology. Most of the companies, in addition to good organic growth, have an active acquisition agenda and build operations with strong cash flows, stable margins and proven economic resilience.

EHAB's Venture Capital platform Centripetal specializes in growth companies in Europe. The investment platform Hidden Dreams, which was included in the portfolio as of the balance sheet date, has since been divested in a transaction that was completed in February 2025. In addition to these holdings, EHAB has direct ownership in a number of companies that are included in the Venture Capital segment.

The Liquid Assets segment includes EHAB's holdings in listed securities and cash and cash equivalents. On the balance sheet date, Liquid Assets consisted of cash and cash equivalents and convertibles in Novedo.

As of 31 December 2024, EHAB's balance sheet total amounted to MSEK 8,076, of which the Operational Groups segment accounted for 93%, Venture Capital 3%, Liquid Assets 3% and other net assets 1%. The following pages describe a selection of our investments.

FINANCIAL OVERVIEW

Comments on the investment company's financial development

Earnings trend for the full year 2024 and net asset value

During the period, *change in fair value of participations in portfolio companies and other investments* via the profit and loss statement amounted to MSEK -577 (-221). The change in value during the year is mainly due to the sale of Dentalum, which took place at an amount below the recognised value, and changed valuations in Centripetal, Hidden Dreams, and Samfastigheter i Norden. The value of Hidden Dream was reduced based on an agreement for the sale of EHAB's entire holding, a transaction that was completed in February 2025. The valuation of EHAB's other holdings, including the major holdings in Lyvia, Novedo, Rebellion, and Eitrium, have also been analysed as part of the company's valuation process and were assessed as stable over the past year.

The changes in value in the segments Operational Groups and Venture Capital amounted to MSEK -479 (-147) and MSEK -99 (-90), respectively, and the change in value of listed assets amounted to MSEK 1 (16). Operating income, in addition to the above, consisted of a dividend from Centripetal of MSEK 12, and a smaller proportion of *other operating income* of MSEK 4 (3), which primarily related to services that were provided to portfolio companies.

Operating costs in 2024 amounted to MSEK -86 (-45). The increase was due primarily to *increased personnel costs* and *other external costs*.

Other external costs consisted of costs for services utilised during the period, of which a significant portion, MSEK 27, consisted of costs (incl. non-deductible VAT) related to Lyvia Group AB's sales process.

Loss from financial items amounted to MSEK -235 (-180), of which MSEK 24 (21) was *financial income* and MSEK -259 (-201) was *financial expenses*. The difference in results from financial items between the periods is explained by costs linked to the higher redemption price and the dissolution of capitalised bond costs, as well as a full-year effect of increased bond volume and a slightly higher interest rate.

Net loss for the year amounted to MSEK -880 (-443).

As of 31 December 2024, EHAB's net asset value amounted to MSEK 6,384 (7,164) and the net asset value per ordinary share amounted to SEK 8,117 (9,294).

Earnings trend for the fourth quarter 2024

During the period, *change in fair value of participations in portfolio companies and other investments* via the profit and loss statement amounted to MSEK -69 (-510). The change in value for the period is mainly due to a decrease in the value of Hidden Dreams, Samfastigheter i Norden, as well as Centripetal Partner. The changes in value in the segments Operational Groups and Venture Capital amounted

to MSEK -23 (-549) and MSEK -47 (-6), respectively, and the change in value of listed assets amounted to MSEK 1 (44). In addition to the above, operating income consisted of a dividend from Centripetal of MSEK 12, as well as a smaller proportion of *other operating income* of MSEK 0 (0), which primarily related to services provided to portfolio companies.

Operating costs during the fourth quarter amounted to MSEK -35 (-15). The costs consisted primarily of *personnel costs* and *other external costs*.

Other external costs consisted of costs for services utilised during the period, of which a significant proportion, MSEK 13, consisted of costs (incl. non-deductible VAT) related to Lyvia Group AB's sales process.

Personnel costs amounted to MSEK -12 (MSEK -7), of which MSEK -4 consisted of costs related to the reduction of the workforce.

Loss from financial items amounted to MSEK -68 (-47), of which MSEK 9 (7) was financial income and MSEK -77 (-54) was financial expenses. The difference in results from financial items between the periods is mainly explained by costs linked to the higher redemption price and the dissolution of capitalised bond costs.

Net loss for the period amounted to MSEK -159 (-572).

Financing and liquidity

In January 2024, EHAB carried out a new issuance of preference shares, resulting in a capital injection of MSEK 100 into the company.

As of 31 December 2024, EHAB's liquid assets totalled MSEK 173 (263). In addition, EHAB owned 95,225,500 convertibles in Novedo Holding AB (publ), which as of the balance sheet date had a value of MSEK 93. Taking into account the holdings in this listed asset, liquid assets amounted to MSEK 266 (263).

As of December 31, 2024, EHAB had total liabilities of MSEK 1,691 (1,587), of which MSEK 1,634 (1,570) consisted of the bond loan. Furthermore, the net cash/debt position (+/-) amounted to MSEK -1,469 (-1,308), and the loan-to-value (LTV) ratio was 23% (18%).

At the beginning of 2025, EHAB engaged in discussions with the company's largest bondholders regarding amended terms for the bond. The implementation of these changes is contingent upon the approval of a written procedure by the bondholders. More information about the bond and the refinancing risk associated with it can be found in Note 5 and Note 9.

NOTES ON THE INTERIM REPORT

Note 1. Accounting Principles

EHAB applies International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") as adopted by the EU. Furthermore, RFR 1 *Supplementary accounting rules for groups* has been applied.

This interim report has been drawn up in accordance with IAS 34 Interim Reporting and applicable disclosure requirements under the Swedish Annual Accounts Act.

Given that EHAB, according to the criteria in IFRS 10, is an investment company, associated companies and subsidiaries are not consolidated. Instead, holdings are reported as shares valued at fair value via the result.

The accounts of the parent company have been prepared in accordance with the Swedish Annual Accounts Act. The interim report for the parent company has been prepared in accordance with Chapter 9, Interim report in the Swedish Annual Accounts Act (the parent company does not apply IAS 34) The accounting principles correspond to the consolidated financial statement, except for shares in subsidiaries and other investments not being valued at fair value, leasing charges are carried as an expense in the period they arise and liquid assets that are part of endowment insurance are classified as other long-term receivable.

Accounting principles and methods of calculation are unchanged from those applied in the annual report for 2023. New and amended IFRS approved for future use are not expected to have a substantial effect on the company's financial reports.

Disclosures in accordance with IAS 34.16A, in addition to the financial reports and their associated notes, also appear in other parts of the interim report.

Amounts in the notes refer to thousands of SEK, unless otherwise stated.

Note 2. Segment Information

EHAB divides up and monitors its portfolio based on three segments; *Operational Groups*, *Venture Capital* and *Liquid Assets*. Operational Group-holdings include the portfolio companies whose objective is to build and develop groups in resilient sectors with good potential for growth. Venture Capital-holdings include the investment platforms that invest in growth phase companies as well as direct investments in growth companies. Liquid Assets consist of investments in listed securities and cash and cash equivalents, i.e., assets that can be rapidly converted into cash and cash equivalents.

Explanations concerning the valuation method, where the figures below reflect the Level at which the fair value has been determined:

- 1 A – Latest trading price
- 2 A – Other observable data
- 3 A – Latest new share issue
- 3 B – Latest investment adjusted
- 3 C – Last known transaction of shares
- 3 D – Relative valuation/Multiple valuation
- 3 E – Discounted cash flows
- 3 F – Other valuation method

Level 1: Fair value determined by prices listed in an active market for the same instrument.

Level 2: Inputs other than quoted market prices that are observable for the asset or liability, either directly, such as prices, or indirectly, such as derived prices.

Level 3: Fair value determined based on inputs that are not observable in the market.

Level 3 valuations involve a high degree of subjective judgment and carry greater uncertainty compared to holdings within Levels 1 and 2. Particular emphasis is placed on recently completed market-based transactions, such as new share issues or acquisitions.

If a significant amount of time has passed since the last transaction or if other conditions have changed substantially, more in-depth analyses are typically conducted. These may include alternative valuation methods, such as multiple-based valuations using peer comparisons or discounted cash flow analyses, to assess the reasonableness of valuations and identify any necessary adjustments.

During the fourth quarter, EHAB conducted such in-depth analyses, particularly regarding the company's largest holdings, and concluded that the valuations are reasonable.

For more information regarding valuation methods, please refer to the latest annual report.

¹⁾ Refers to valuation method before disposal.

²⁾ Novedo's convertibles are listed on the Frankfurt Stock Exchange and are freely transferable, which is why they are classified as liquid assets. Since the market is not considered to be an active market according to IFRS, valuation is done according to Level 2. The convertibles are covered and bear a fixed PIK interest rate of 12.0%. In the event of an IPO of Novedo Holding AB (publ) or on the maturity date that falls four years after the first issue of convertibles, a mandatory conversion will take place to shares in Novedo Holding AB (publ). Full terms and conditions are available on the Novedo website: www.novedo.com

³⁾ Raised bond loan is subject to a variable interest rate and is recorded at amortised cost. The bond in the report is recorded at MSEK 1,634, including capitalised borrowing expenses, interest paid and accrued interest. The fair value for the bond as of 31 December 2024 is assessed as being MSEK 1 547, based on available information about the latest trading price as of that date. Financial assets that are reported at amortised cost are assessed as approximately making up the assets' fair value. For more information about accounting principles, please refer to note 2 in the company's latest annual report.

⁴⁾ All ordinary and preference shares have been taken into account when calculating proportion of equity.

Note 4. Information on transactions with related parties

The company has identified as related parties the company management, the board of the company, subsidiaries and associated companies of Esmaeilzadeh Holding AB, and other companies in which Esmaeilzadeh Holding exercises significant influence in ways other than holding more than 20% of the votes, as well as the owners of Esmaeilzadeh Holding AB and their related parties.

Transactions with related parties consist primarily of financing-related and investment-related transactions. For financing purposes, transactions have historically taken place primarily with EHAB's main owner Dr. Saeid AB. For investment purposes, transactions have primarily consisted of capital to EHAB's portfolio companies. The transactions have been regarded as promoting EHAB's operations and development. Transactions with related parties take place at arm's length and on market terms.

Esmaeilzadeh Holding AB has carried out transactions with the companies specified above. Transactions with related parties during the year are described in more detail below.

Disclosure of transactions with related parties during the financial year 2024

During the first quarter, EHAB provided shareholders' contributions of MSEK 1.9 and MSEK 0.6, respectively, to Ametalis AB and Lycenna AB.

During January, EHAB bought shares in Lyvia for a value of MSEK 75.0 and MSEK 29.0, respectively, from Shaken not Störd AB (a company owned and controlled by Saeid Esmaeilzadeh) and Dr. Saeid AB.

During March, EHAB sold shares in Lyvia Group AB to Dr. Saeid AB at a value of MSEK 70.0.

Furthermore, loans of MSEK 0.8 and MSEK 1.0, respectively, were provided to Samfastigheter i Norden AB and Lycenna AB during the first quarter.

During April, EHAB repurchased shares in Lyvia Group AB from Dr. Saeid AB at a value of MSEK 70.0.

During April, EHAB lent MSEK 5.0 to Samfastigheter i Norden AB, of which MSEK 4 were repaid in the same month.

During May, EHAB lent MSEK 1.4 to Samfastigheter i Norden AB.

During May, EHAB subscribed for preference shares in Hidden Dreams AB for a total of MSEK 3.6.

During June, EHAB sold all shares in Lycenna AB to Dr. Saeid AB at a value of MSEK 1.0.

In July, EHAB made a shareholders' contribution of MSEK 4.3 to Ametalis AB.

During the third quarter, EHAB provided loans in the amount of MSEK 13.4 to Samfastigheter i Norden AB, of which MSEK 11.0 was repaid during the same period.

In August, EHAB made a shareholders' contribution of MSEK 12.6 to Eitrium AB.

In September, EHAB subscribed for convertibles in Novedo Holding AB for MSEK 123.0. The payment was made by an offset of EHAB's shareholder loan to Novedo including accrued interest.

At the end of September, EHAB sold convertibles in Novedo Holding AB to Dr. Saeid AB for MSEK 24.4.

During October, EHAB subscribed for preference shares in Hidden Dreams AB for a total of MSEK 4.0.

During October, EHAB acquired shares in Lyvia from Idaion AB and Unneland Holding AS (companies owned and controlled by members of EHAB's management team). Payment was made through the offset of a loan and through shares in Novedo.

In December, Centripetal Partner AB repaid its loan of MSEK 10.0 and accrued interest and paid a dividend of MSEK 12.3 to EHAB.

In December, Samfastigheter i Norden AB amortized loans of MSEK 5.5, as well as accrued interest.

Note 5. Bond loan

In January 2022, EHAB issued a bond loan of BSEK 1.2 under a total framework of BSEK 2.4. The bond has been listed on Nasdaq Stockholm's corporate bond list under the ticker EHAB01 and has a three-year maturity with an interest rate of 3m STIBOR + 7.5 percent annually, payable quarterly, with the first payment date on April 26, 2022. Under the bond terms, EHAB is required to maintain a minimum level of liquid assets and keep a loan-to-value ratio of no more than 30 percent.

In January 2023, EHAB issued additional bonds with a nominal amount of MSEK 375 within the framework of the existing bond loan. These bonds were placed at 92.5% of their nominal value and, like the previous portion of the bond loan, have been listed for trading on Nasdaq Stockholm's corporate bond list

In November 2023, EHAB announced that the company had initiated a written procedure to implement certain amendments to the bond terms. These amendments included maintaining an unchanged liquidity reserve requirement for EHAB (at least MSEK 250 in liquid assets at each balance sheet date) instead of increasing the liquidity reserve during the last 12 months of the loan period as per previous terms. Additionally, the expected redemption price would be adjusted to 102.25% of the nominal amount, and the bonds would be secured by funds in an escrow account, which could only be used for purposes aimed at repaying the bond.

The updated terms took effect in connection with the issuance of preference shares, which was completed in January 2024 and provided EHAB with a capital injection of MSEK 100.

In December 2024, EHAB announced that the company had initiated a written procedure to extend the bond loan's maturity in order to complete the previously communicated sales process of Lyvia before the bond's maturity date. The proposed amendments were approved by bondholders in January 2025 and included an extension of the bond's maturity to April 26, 2025, a gradual reduction of the minimum level of liquid assets, certain restrictions on new investments, adjustments to the redemption price based on timing, and other modifications. In accordance with the notice of the amendment process, the approval also included a consent fee payment of 1 percent of the nominal bond value (equivalent to MSEK 15.75) to bondholders, which was disbursed at the end of January 2025.

At the end of January 2025, EHAB provided an update on the Lyvia sales process, stating that there was uncertainty about whether the transaction could be completed as structured in the letter of intent. Considering this, EHAB announced that it had renewed discussions with the company's bond investors.

At the end of February, EHAB announced a proposed amendment to the bond terms, which would involve refinancing the company's existing bonds through a mandatory securities exchange into new secured bonds. Under the proposal, the new bonds would have a three-year maturity and a fixed deferred interest rate of 11 percent per year, secured by pledging EHAB's shares in key portfolio companies and a newly formed wholly owned intermediate holding company. The implementation of the proposal, which is supported by a number of EHAB's largest bond investors, is conditional upon the approval of a written procedure in accordance with the bond terms. This requires that two-thirds of those voting in the procedure vote in favour of the proposal.

Note 6. Investment commitments

In connection with EHAB establishing new companies, EHAB will undertake to contribute capital for financing the portfolio company's initial company acquisition and the current operations. Investment commitments are also made in relation to other shareholders and co-founders. The commitments typically include a certain degree of flexibility and apply under certain agreed conditions. As of 31 December 2024, EHAB's maximum investment commitment to Hidden Dreams AB amounted to MSEK 26.9 and Ametalis AB to MSEK 71.7. Given EHAB's strategic focus on debt management, the company has actively worked to reduce its investment commitments. As of the reporting date, only the investment commitment for Ametalis AB remained.

Note 7. Disclosure relating to agreements with minority shareholders

EHAB has entered into a number of agreements with minority shareholders in companies that are part of EHAB's investment portfolio. The agreements are drawn up with key individuals within the portfolio companies and aim to set out their rights and obligations associated with their ownership. This includes situations that may lead to the acquisition of these individual's securities. The commitments that remained as of September 30 have since been settled during the fourth quarter, and EHAB therefore has no commitments as of the balance sheet date.

Note 8. Events after the end of the reporting period

- In the beginning of January 2025, EHAB's bondholders approved the written procedure that the company had initiated in December 2024. The approval primarily entailed an extension of the maturity date for EHAB's outstanding bond loan to 26 April 2025.
- At the end of February, EHAB announced a proposal to further amend the bond terms and refinance the bond loan, through a mandatory exchange of the company's existing bonds for new secured bonds. The new bonds are proposed to have a tenor of three years and a fixed deferred interest of 11% per year, as well as be secured by the pledging of EHAB's shares in material portfolio companies and a new wholly-owned intermediate holding company. The proposal for a securities exchange is subject to a written procedure being approved in accordance with the bond terms.
- In February 2025, EHAB divested all its shares in Hidden Dreams AB. The payment was made in shares in Novedo Holding AB, Rebellion Capital AB and Centripetal Partner AB. The sale entails a dissolution of EHAB's remaining capital commitment to Hidden Dreams AB.

Note 9. Significant risks and uncertainties

EHAB assesses that the refinancing risk constitutes the greatest risk for the business. This risk has a direct impact on the company's ability to ensure continued operations. Furthermore, the refinancing risk can affect the valuation of the company's holdings, as a possible sale under distress can lead to price levels that deviate significantly from more orderly market conditions. In light of this, handling the refinancing risk has been a priority for both the company's management and board, and has resulted in a concrete proposal that the bondholders will vote on.

The management and the board view the process positively and the assessment is that refinancing of the company's existing bonds can be carried out. If a sufficient number of the bondholders do not vote in favour of the proposal, it may indicate a material uncertainty factor that may lead to significant doubt about the group's ability to manage its obligations and continue operations.

The investments made are typically in companies undergoing expansion. The Operational Groups segment is in already established companies, with a more stable turnover and earnings trend. The Venture Capital segment is in companies in their earlier phases, which have great opportunities but at the same time are associated with higher risks in future cash flows.

The business has inherent risks with respect to the changes in the fair values of the holdings. With the exception of holdings in the *Liquid Assets* segment, all values are derived from so-called Level 3 assessments, which contain a high degree of self-assessment. With a 20 percent change in fair values for level 3 assessments, the portfolio value would be MSEK 1,550 higher/lower.

The management of EHAB is continuously working to ensure that sufficient funds are available to manage EHAB's commitments and contractual payments, not least in relation to EHAB's outstanding bond.

EHAB continuously evaluates external factors, including negative effects on the capital market, inflation and increased interest rates. A weak capital market results in more difficult capital acquisition for EHAB and its portfolio companies, inflation can affect different portfolio companies to varying degrees and increased interest rates can lead to more expensive financing. EHAB works actively with risk management in these areas.

Please also refer to note 3 in the 2023 annual report, where the financial risks are described in more detail.

ALTERNATIVE KEY RATIOS

The European Securities and Markets Authority (ESMA) has issued guidelines concerning the use of so-called alternative key ratios (Alternative Performance Measures, APM) that deal with companies whose securities are listed in a regulated market.

The guidelines have been drafted with the purpose of increasing transparency and comparability in the APMs that are often presented by listed companies' published information.

The following section shows definitions and reconciliation tables of the alternative key figures that Esmaeilzadeh Holding AB uses in its information to the market. These alternative key figures are:

1. Net asset value
2. Net asset value after calculated value redemption preference shares
3. Net asset value per ordinary share
4. Equity ratio
5. Net cash (+) / Net debt (-)
6. Loan-to-value ratio (LTV)
7. Liquid assets
8. Portfolio Value

In addition to the alternative key figures, certain financial terms that have been used in the report are also defined below.

Definition of alternative key figures and other terms appearing in the report

Key ratios	Definition	Motive for use
Balance sheet total	Balance sheet total is the total of assets, which is equal to debts and equity in the balance sheet.	A recognised expression for the company's assets.
Loan-to-value ratio (LTV) <i>(APM)</i>	Loan to Value, defined as the absolute amount of net debt divided by the net asset value. In the event there is a net cash surplus, LTV is defined as zero.	The key ratio provides a measure of the company's loan-to-value ratio, which is interesting for assessing financial risk.
Change in fair value of participations in portfolio companies and other investments, alternatively Change in fair value of financial assets	Realised and unrealised result of change in fair value of participations in portfolio companies and other financial assets during the period.	A measure of the financial development in the company's investments during a certain period.
Investments	All investments in listed and unlisted financial assets, excluding short-term loans to portfolio companies.	A measure showing the company's investment activity, which is relevant given the nature and operations of the company.
Liquid assets <i>(APM)</i>	Liquid holdings (i.e., holdings in listed securities that can be easily converted into liquid assets) and liquid assets.	A key ratio of the company's liquidity and short-term debt repayment capacity.
Net cash / debt (+/-) <i>(APM)</i>	Liquid assets less interest-bearing liabilities (including investments/divestments not paid) but excluding such interest-bearing liabilities that are permitted according to the bond terms and conditions (defined under "permitted debt").	A measure of the relationship between interest-bearing liabilities and liquid assets. Provides information on the company's opportunities to settle its debts in the short term.
Portfolio Value <i>(APM)</i>	The total fair value of the company's three segments Operational Groups, Venture Capital holdings and Liquid Assets.	A measure of the value of all holdings, which can be used to follow value development over time, and to compare individual holdings or segment sizes with.
Pro-forma / proformad	The term refers to key ratios (e.g., turnover and EBITDA) that describe a group as if the group had owned all the acquired units during the entire period the key figure refers to.	The term is useable in groups which have intensive acquisition to show the group's theoretical key ratios (e.g., turnover and EBITDA), including all of the group's acquired companies.
Earnings before interest, taxes, depreciation and amortisation of tangible and intangible fixed assets (EBITDA)	Earnings before interest, taxes, depreciation and amortisation of tangible and intangible fixed assets. Calculated by restoring income, depreciation and amortisation to the operating income.	The key ratio is a measure of a company's financial performance before depreciation and amortisation, interest and taxes. It is a key ratio that can be used for evaluation over time and for comparisons with other companies. EBITDA is an especially relevant key figure for some of EHAB's portfolio companies.
Equity ratio <i>(APM)</i>	Equity divided by balance sheet total.	The key ratio shows how much of the balance sheet total has been financed with equity. Recognised key ratio for assessment of capital structure and financial risk.
Net asset value <i>(APM)</i>	Assets valued at fair value with deduction of current and long-term liabilities valued at fair value, alternatively the net value of all assets, equivalent to the investment company's equity.	The key ratio gives the value of the company's net assets and thus shows the reported value of the company. It is a recognised key ratio for the value of investment companies and allows comparisons over time and with other companies.
Net asset value after calculated value for redemption of preference shares <i>(APM)</i>	Net asset value reduced by calculated value to redeem the company's preference shares.	A measure that indicates the net asset value at a given time with deduction for the calculated redemption value of the company's preference shares. Is important for the calculation of the net asset value that accrues to the company's ordinary shareholders.
Net asset value per ordinary share <i>(APM)</i>	Net asset value per ordinary share is defined as equity attributable to ordinary shares (i.e. net asset value after calculated value for the redemption of preference shares) divided by the total number of ordinary shares at the end of the period.	An established measure for investment companies showing the owners' share of the company's available net assets per ordinary share.
